24 June, 2009

Dear Parents,

Over the last two weeks the teachers have been trialling a website called “skwirk” which is an interactive resource based on the curriculum for HSIE, Science, English and Mathematics. We have been offered access to this site for both school and home use, for all students in Years 1-6. More details can be found on their website.

www.skwirk.com.au

It is an excellent resource and will be used on school laptops, computers, and interactive whiteboards. It can be used by class teachers, language teachers and ESL teachers. It offers activities, videos, animations and text all related to our curriculum. Students will also have access at home.

The cost of this program is only \$2 per student for the rest of the year. This is a great saving as normally individual access costs \$99 per person.

Each student will be given a username and their own password for their use only.

We ask that each student pays \$2 before the end of the term so that we can start using this excellent resource as soon as possible.

Thankyou,
Mr Clark
Co-ordinator

✂-----
“skwirk” Computer Program

I give permission for my child of class to use the internet website “skwirk” and enclose \$2 for the program for the remainder of the 2009 school year.

Signed Parent/Guardian
